This person/business is interested in informing and protecting its clients' rights. To that end, you are being presented with this document. Diminished value is the lost market value that can take place when a car is damaged. Even though your vehicle is well repaired, it may have lost value due to a blemished vehicle history report and other negative market factors stemming from the accident.

If you are interested in discussing diminished value with Forrest Law and learning more about what rights you may have to recover additional funds, please fill out the section below. Your information will only be used for this initial contact and for no other purpose.
